Dear Colleagues!

You are cordially invited to participate in the forthcoming International Scientific and Methodological Conference (NMK TUSUR-2026) on the theme ‘**New Models of Engineering Education as the Basis of Russia's Technological Sovereignty**’ with the further publications in e-Library (RINTs). The conference will provide a platform for the following discussions:

1. Expert presentations at the plenary session.
2. Speech sessions on topical thematic sections.
3. Master classes and round table discussions.

The conference is scheduled to take place **on January 29th - 30th 2026** aiming at the experience exchange and efforts consolidation of representatives of education, science and industry in realizing technological sovereignty. The discussion will take place in the following **thematic sections**:

1. Artificial intelligence in design and control systems;
2. Interdisciplinary approach to training of new generation engineers;
3. Social aspects and institutional mechanisms of integration of education, science and production;
4. Development and implementation of new educational technologies in engineering education;
5. Transformation of business and education in the era of artificial intelligence: from challenges to opportunities;
6. Informatization of education and e-learning methods: digital technologies in education;
7. Individualization of training as an opportunity for professional promotion of future specialists.

Papers are submitted **from October 13th 2025 to November 29th 2025**.

Papers of undergraduate and postgraduate students are submitted only in co-authorship with scientific and pedagogical instructors..

Paper Format Guidelines and all the information for participants are available in the Appendix and at the conference webpage (click on the QR code).

Consultations and cooperation issues: Mariya Vyatkina, +7 (382 2) 53-30-75, office 310, main building of TUSUR (40 Lenina Prospect), mariia.i.viatkina@tusur.ru.

Appendix 1: Paper Format Guidelines for NMK TUSUR-2026

Rector

Victor Rulevskiy

Paper Format Guidelines for NMK TUSUR-2026

The article should be relevant and original. It should consider the methodological and practice-oriented results of the author's research. Conclusions should be made within one of the thematic sections of the conference:

1. Artificial intelligence in design and control systems;
2. Interdisciplinary approach to training of new generation engineers;
3. Social aspects and institutional mechanisms of integration of education, science and production;
4. Development and implementation of new educational technologies in engineering education;
5. Transformation of business and education in the era of artificial intelligence: from challenges to opportunities;
6. Informatization of education and e-learning methods: digital technologies in education;
7. Individualization of training as an opportunity for professional promotion of future specialists.

The contributions are to be submitted via <https://conf.tusur.ru/>. File with the text of the article in doc(x) format should be attached to the application. File name: surname and initials of the first author (ex. Ivanov I.I.doc). If the text of the article is finalized, the new application should not be filled in. The modified article should be attached after the deletion of the previous version.

Paper Format Guidelines

Publication Ethics	The originality of the text should be more than 70%. For the Conference Proceedings only the original paper that has not been published or submitted for consideration to other publications are accepted. The authors are solely responsible for the accuracy of the content of the submitted materials.
Authors	Conference papers accepted for publication can have up to four authors. Each author can submit no more than 2 articles for publication. One and the same paper can be accepted to only one conference section. Undergraduate and postgraduate students' papers are accepted only in co-authorship with scientific and pedagogical instructors.
Language	English/Russian
Paper Volume	4-8 pages, including abstract, key words, references, and etc.
Content	Topicality, problem statement, aim of the research work, description and argumentation for the research methods chosen, research results and authors recommendations on their practical use.
Structure (use the paper template)	UDC on the subject of the paper, authors' initials and surname, title of the paper, abstract (not summary), key words, body of the paper, reference list entitled as <i>References</i> , information about the authors. Then in English: authors' initials and surname, title of the article, abstract, key words. Information about the authors includes: last name, first name and patronymic, academic degree, academic title, position, organization, phone number, email.
Paper Style	Academic. Conversational style or professional jargons are not accepted.
Paper Formatting (use the paper template)	The paper text is placed in one columns, without forced hyphenation, through one interval, in Times New Roman font 14 size, on one side of the A4 sheet. To facilitate formatting, the paper template is attached (available at the link https://regulations.tusur.ru/documents/1067). The volume of a properly formatted paper must be no larger than eight pages. The same symbols in the paper text, formulas, tables and figures should be uniform in spelling. Russian and Greek symbols are typed in a straight font, and Latin symbols are typed in italics, except for words, their abbreviations, names of functions, programs, companies and chemical formulas. Formulas should be typed in Equation or Math Type editor (MS Word). Russian and Greek symbols, mathematical signs (+, -, *, =, brackets, ...) and numbers should always be typed in regular upright type, and Latin symbols denoting variables should be in italic type, except for those included in regular words and their abbreviations, names of functions, software, companies and chemical formulas (const, input; sin x(t1); Uin; Ibx;Tz; H2O, Adobe Acrobat, Cisco, etc.); vector values should be in bold upright type (not italic) – A1, M(f). Formula templates can be found in the paper template. All designations and abbreviations must be explained when first used in the text. The units of measurement of physical quantities must correspond to the International System of Units (SI) and be written in Russian separated by a space (x, GHz; 20 GHz; T, deg; 7 °C). Decimal numbers must be written with a comma (not a dot). All tables and figures must have appropriate headings (not full-text references copied from the body of the paper). (Fig. 1. Figure title; Table 1. Table title). Large legends should be preferably included in the text. All headings and titles should be in Times New Roman (font size 9 pt), regular type, no italics, variables should be the same as in the text. All figures and tables should

	be referenced to in the text (... in Fig. 3, ... in Table 2). All illustrations and photographs should be in black and white, clear, contrasting, neat, and grouped. Lines in charts and graphs should not be bold, grid lines should be clear. Units of measurement should be in Russian. Decimals should use commas (not dots). Illustrations and drawings can be made in CorelDRAW, Illustrator, Word, and Visio programs and be editable. Illustrations and drawings should have not less than 300 dpi and no more than 600 dpi. Making image scale follow the main requirement: the illustration should be provided in the way that it allows legibility of any text written in Times New Roman, not smaller than 8-9 pt. All sources in the list of references should be referenced in the text (numbered in the textual order, e.g., [1, 2], [5–7]). All sources should be represented in accordance with and ГОСТ Р 7.0.5–2008 and include all information necessary to identify the source. For non-periodical editions: last name and initials of the author, full title of the work, place of publication, name of publisher, year of publication, number of pages. For periodicals: last name and initials of the author, full title of the work, title of the journal, year of publication, volume, issue, page number (s). The list of references is required with the least of 5 recent Russian and international sources. It is recommended that the number of author's publications and links referenced does not exceed 20% of the total number of sources. Not permitted: - pagination, - page break in the text, - paginal references, - sparse or compacted letter spacing.
Paper Reviewing	Рецензент не вступает в дискуссии с авторами отклонённых материалов. All papers for NMK TUSUR-2026 are reviewed by the specialists recognized by TUSUR university in the related field and finally approved by the Editorial Board. After accepting, papers are checked to comply with the paper subject and formal requirements. In case of non-compliance with the paper subject or formal requirements, the paper is not accepted for consideration, the author is notified about it. If the paper meets the subject and formal requirements, then it is sent to the reviewer (moderator of the section). The reviewer decides on the possibility of publishing the paper in the proceedings and presenting the report at NMK TUSUR-2026. Based on the results of the review, one of three decisions can be made: 1) The paper is approved for publishing and presentation at the conference. 2) The paper is approved for publishing and the author is invited as a presenter upon condition to make necessary corrections in accordance with the recommendations. 3) The paper is not accepted for publishing and presenting at the conference. Experts do not discuss with the authors the reasons for paper rejections.
Conclusions for Paper Publishing	To publish papers in the conference proceedings, it is necessary to provide the originals of the conclusion on the possibility of open publishing (expert conclusion) and the expert conclusion of the internal export control commission (export conclusion).

Registration fee in the amount of 1500 rubles (VAT included) is charged for each paper accepted for publication, regardless of the number of co-authors. Payment is made after a positive review and acceptance of materials for publication. The documents confirming the payment (a scan of the payment document) must be placed in the personal account via <https://conf.tusur.ru/>. The payment is not refundable.

The registration fee includes the costs of publishing the conference program, proofreading materials, layout, production of the original layout of the conference proceedings, provision of mandatory copies to the Russian Book Chamber.

Payment details for registration fee:

ИНН 7021000043 КПП 701701001

УФК по Томской области (ТУСУР л/с 30656LU0Э20)

Р/с 03214643000000016500 в ОТДЕЛЕНИИ ТОМСК БАНКА РОССИИ/УФК по Томской области г. Томск

Unified Treasury Account 40102810245370000058 (indicate in the column «корреспондентский счет»)

БИК 016902004 ОКТМО 69 701 000

The X symbol in the personal account should be filled in with a Latin capital letter. Revenue code 000000000000000000130.

Attention! When making a payment order, fill in the 'Purpose of Payment' field in detail, without shortening the entry! Incorrect filling of the payment order leads to blocking of the received payment by the Federal Tax Service of Tomsk region and, accordingly, late reflection of the payment. **In the 'Purpose of payment' field, specify: NMK**

TUSUR-2026, author's surname, initials, town.

Dear colleagues! To publish papers in the conference proceedings NMK TUSUR-2026, when sending papers to the section, you should issue the act of the expertise made by the internal export control (scan) and the conclusion on the possibility of the paper open publication due to the lack of information that constitutes a state secret (scan).

Detailed information is available at the official conference page <https://nmk.tusur.ru/>

For any organization related inquiries please contact Mariya Vyatkina, by phone: +7 (382 2) 53-30-75, at mariia.i.viatkina@tusur.ru or address: Tomsk, 40 Lenina prospect, office 310.

Sincerely, Organizing Committee NMK TUSUR-2026
